

Focus on what works: Proxet's tech bulletin

We've got some great insights to share in this month's newsletter.

2025 technology forecast audit

We're reviewing our hits and our "almost theres" — and how these results are shaping 2026.

Building autonomous AI that works

Move beyond chatbots to true agentic systems. Discover the memory and infrastructure needed to drive real ROI through autonomy.

Proxet's global holiday highlights

Step away from the screen for a moment and browse the photos from our teams' winter gatherings!

Proxet's 2025 forecast audit: the hits, the misses, and the messy middle

In this article, we're auditing our 2025 predictions to see where we hit the mark 🎯 and where the AI revolution hit a physical wall. 🧱 See the full side-by-side comparison of our hits and misses — and how they are already shaping the landscape for 2026.

The engine of AI's autonomy

"In agentic systems, long-term memory isn't just storage — it's the foundation of true autonomy. Without it, agents reset like amnesiacs, doomed to repeat mistakes; with it, they evolve into efficient, optimized executors."

- Gerald Hewes, Technology Executive

Autonomous agents: how to build AI that actually works

Most companies are stuck with simple chatbots, but the real ROI lies in agentic systems that can orchestrate complex workflows without constant hand-holding.

This post breaks down the technical "must-haves"—from memory infrastructure that prevents AI "amnesia" to observability tools that stop costs from spiraling—so you can transition from basic automation to true autonomous value.

Global teams, one festive spirit

We might be back to our computers, but our hearts are still at the holiday party. Take a 2-minute "mental vacation" and browse the photos from our global gatherings in Bogotá, Wrocław, Kyiv, and Auberndale!

We're hiring

As Proxet grows, we continue to seek innovative engineers across the board! We craft cutting-edge software, data, and AI solutions that drive success for our renowned clients, and we're always looking for exceptional talent to join our team.
